## HERE'S TO THE GOOD LIFE THE SPACE COWBOY

In this series of work by The Space Cowboy aka Chayne Hultgren – 56x World Guinness Record holder, he asks the question; “Ever feel like your life needs a pinch of humor, a sprinkle of intrigue, and a dollop of art? Look no further! The Space Cowboy paintings are crafted to tickle your funny bone, pique your curiosity, and serve as a mirror to your own life's peculiarities. Like a visual stand-up comedy routine, each brushstroke is designed to make you smile, chuckle, and even ponder the great mysteries of existence.”

The Space Cowboy paints with bold emotion and a high-speed wet overloaded brush, using gravity - and like any great illusionist he creates magic for all to enjoy! Once the paint has dried (or not), he often then jumps into the illusion of having his art come alive with augmented reality (AR). If you are reading this on your screen, try it now by downloading the Artive app on your phone, open the app and hold the camera over one of his images and watch it come alive!
